

OneVillage – Terms Acceptance Requirement

Before creating an account, every user must be required to read and accept the Terms of Use and Privacy Policy.

The registration page must include a checkbox stating: 'I agree to the Terms of Use and Privacy Policy.'

The checkbox must not be selected by default. Users must actively choose to accept.

Users must be able to open and read the Terms of Use and Privacy Policy before completing registration.

The system should store the date, time, and version of the Terms accepted by each user.

If the Terms are updated in the future, users should be asked to accept the new version before continuing to use the platform.

The developer should make this feature available on both the website and the mobile application.
